Contents

NUMBER 1

1 Editorial

3 Prospering in a transition economy through information technology-supported organizational learning *Marius Janson, Dubravka Cecez-Kecmanovic & Jože Zupančič*

37 IT for niche companies: is an ERP system the solution? *Kai A Olsen & Per Sætre*

59 Reporting bad news on software projects: the effects of culturally constituted views of face-saving *Mark Keil, Ghi Paul Im & Magnus Mähring*

89 Improving requirements elicitation: an empirical investigation of procedural prompts *Mitzi G Pitts & Glenn J Browne*

111 Philosophy of science underpinnings of prototype validation: Popper vs. Quine *Esther E Klein & Paul J Herskovitz*

NUMBER 2

Special Issue: Philosophy and Epistemology. A 'Peter Pan Syndrome'?

133 Editorial

143 Understanding the design of information technologies for knowledge management in organizations: a pragmatic perspective *Tom Butler & Ciaran Murphy*

165 Epistemological and theoretical challenges for studying power and politics in information systems *Leiser Silva*

185 A continental philosophy perspective on knowledge management *Lewis Hassell*

197 Epistemological perspectives on IS research: a framework for analysing and systematizing epistemological assumptions *Jörg Becker & Björn Niehaves*

NUMBER 3

215 Editorial

217 Persistent problems and practices in information systems development *Karlheinz Kautz, Sabine Madsen & Jacob Nørbjerg*

241 The enduring contradictions of new software development approaches: a response to 'Persistent Problems and Practices in ISD' *Richard Baskerville, Jan Pries-Heje & Balasubramaniam Ramesh*

247 Continuing the debate: a response to a response – persistent problems and practices in Information Systems Development as enduring contradictions of new software development approaches? *Karlheinz Kautz, Sabine Madsen & Jacob Nørbjerg*

251 The mysterious case of the missing paradigm: a review of critical information systems research 1991–2001 *Helen Richardson & Bruce Robinson*

271 Examining the integrated influence of fairness and quality on learners' satisfaction and Web-based learning continuance intention *Chao-Min Chiu, Chao-Sheng Chiu & Hae-Ching Chang*

289 A qualitative study of information technology adoption: how ten organizations adopted Web-based training *Simon C H Chan & Eric W T Ngai*

NUMBER 4

317 Editorial

321 Closing the gap: towards a process model of post-merger knowledge sharing *Youngjin Yoo, Kalle Lyytinen & Dongcheol Heo*

349 Degenerative structures that inhibit the emergence of communities of practice: a case study of knowledge management in the British Council *Will Venters & Bob Wood*

369 E-business and organizational change: a structurational approach *Catherine Chu & Steve Smithson*

391 Counter-networks in standardization: a perspective of developing countries *Ping Gao*

421 Multi-metaphor method: organizational metaphors in information systems development *Briony June Oates & Brian Fitzgerald*
